

ADJECTIVE (ADJ)

- ⊗ Definition – Modifies nouns and pronouns. Modify = describe, make more definite
- ⊗ Examples – At the **wild** party the music, **loud** and **obnoxious**, disturbed the **entire** neighborhood.
- ⊗ Recognition Tools – Answers the questions: What kind? Which one? How many?
Can come before the referent it modifies, after the referent, or in the end of the sentence (complement).

- ⊗ Articles – “a, an, the”
- ⊗ Demonstrative Adjectives – Identify or point to nouns, but unlike demonstrative pronouns they are immediately followed by the noun they modify. (this, that, these, those)
- ⊗ Descriptive Adjectives – ascribe a quality to a noun
- ⊗ Indefinite Adjectives – vague number or quantity modifying a referent (several, few, some, each, many, much)
- ⊗ Numerical Adjectives – specify a particular number
