

## MG IDEA EXPLORATION

due Sun. 3/28

Put together a list of 3 to 5 potential topics for your MG project (using the "Tips for Terrific Topics" as a guideline). Be sure to include a short paragraph with EACH about why you might want to pursue this inquiry/research.

- What makes it interesting to you?
- Where does your inspiration/curiosity for it come from?
- How will you pursue it or what ideas are already spinning in your brain?

Don't know where to find ideas? Often the best ones come from the interest inventories we've recently created in our notebooks or even from prior entries (e.g. the one about "rabbit holes" or really anything you found yourself kind of captivated by.

- 1) Create this as an MSWord document within (or upload to) your drafts folder in Dropbox
- 2) Make a video in Flipgrid (for Mrs. C only – they won't be viewed by classmates) that talks through them. Find the Idea Exploration topic in the Multi-Genre Class of 2021 area (joincode connolly9199 – directions in Flipgrid)
